

Mental Health Buddy

Anirvin and Surya

The Problem

Online
education
creates stress
and anxiety

Mental health
ignored, leads
to depression

Worse for
teenagers;
1 in 5
mentally ill

Teenagers
uncomfortable
sharing
problems

Our Inspiration

- Many eminent sportsmen have acknowledged mental health issues
 - Virat Kohli
 - Glenn Maxwell
 - Ben Stokes
 - ..

Our Solution

Teenagers
comfortable to
open up with
friends

Create a
platform to
connect 1:1

Interest based
pairing

Set up calls to
catch up / play
games

Our Hackathon Project

- Google Apps based platform
- Google Form to know the interests
- Code is in Google Apps Script.
 - Implemented pairing algo based on interests. (Simplified version of “Stable Marriage Problem” algo)
- Demo of the code.

Demo + Code

Loading checked user ([Load from HTML](#) for more connections)

Future Vision

- Targeting Grades 7 to 10
 - Workload and stress starts to increase significantly
 - Pilot in the school
 - Add enhancements
 - Set up professional website
 - Gamification
 - Enhance quality of conversations
- Business model: non-profit organisation
 - Minimal resources required to run

Why should our project win?

Simple
solution to a
complex
problem

Working
prototype in 1
day

Minimal
impact to
environment

Massive
impact to
mental
well-being

Challenges faced

- Difference in time zones.
 - concentration levels were down, tired.
- Our first hackathon
 - didn't know what to expect, nervous.
- Make a functional prototype in a day.
 - Ton of Bugs and confusions, but we overcame them to create “Mental Health Buddy”.
